

## FAQs

### Nanny Educators Private Educators Learning Pods

#### **If I share or pod, do all families register with PNN?**

Yes! All families in a pod or a share will pay the \$125 Annual Registration fee. The extra bonus is that everyone can have access through us to our temporary nannies and babysitters throughout the year.

#### **What is the difference between me or PNN as the educator employer ?**

As the employer, we take care of all the payroll, insurances and tax liabilities. It's more streamlined. Otherwise, that is left to you and the "share" families. We are happy to accommodate either way.

#### **For a share or learning pod, does each family pay the full fee amount?**

The beauty of a share is that the cost is shared. If the educator is getting \$25 per hour, each family is paying \$12 per hour. If the agency fee is \$26 per day, each family is paying \$13 per day. If the day is 6 hours or longer, the 17% fee is split between the 2 families.

#### **For the School@Home program, can the agency find a "fill in" if my educator cannot come to work?**

Because we are in an unusual set of circumstances with the pandemic, the agency cannot help with the "one-off" fill in.
